

WEST VIRGINIA INFORMATIONAL LETTER

No. 29

November 1984

TO: All Property and Casualty Companies Licensed
To Do Business In The State of West Virginia

The purpose of this Informational Letter is to assist insurers and rating organizations in preparing filings, by providing a standardized format in which fundamental information in support of filings may be presented. This Informational Letter does not alter statutory filing requirements for any form, rule, or rate.

This Informational Letter supersedes Informational Letter No. 11, which was issued August, 1981.

Effective February 1, 1985, each fire, marine, casualty or surety Form filing submitted to the Commissioner for approval shall be accompanied by Form Abstract PCA-F-81. All Rate and Rule filings shall comply with Property Casualty Procedural Information Form PCPI-R-81 and shall be accompanied by Rate Filing Abstract PCA-R-84. If a combination of Forms and Rules or Rates is to be filed, it shall comply with Form PCPI-R-81 and shall be accompanied by both Form PCA-F-81 and Form PCA-R-84.

Abstracts are not required for filings made pursuant to Chapter 33, Article 20, Section 4, Paragraph (f) (relating to certain special filings of surety bonds), Paragraph (g) (relating to specific Inland Marine risks), and Paragraph (i) (relating to certain requests for consent to rate in excess of specific approved rates).

In the interest of uniformity, the abstract forms should be reproduced in exact copies, however they may be reproduced on the front and reverse sides of a single sheet of paper.

Filings not accompanied by the appropriate, properly completed abstracts will be disapproved.

Please direct any inquiries to William L. Woosley, Director, Rates and Forms Division, telephone 304/348-2094.

W. VA. ADMINISTRATIVE REGULATIONS -- INSURANCE

PROPERTY CASUALTY PROCEDURAL INFORMATION

The filing should be easy to read and understand. It should be self-explanatory, and should be well documented. Premium and loss adjustment factors should be explained, and the statistical information underlying these factors should be a part of the filing. Similarly, the expense provisions used in calculating the proposed rates should be supported with actual experience as much as is possible.

Also, the answers to the following questions should be a part of the filing.

1. If the methods used in this filing differ from those used in the last rate filing for this coverage in West Virginia, or if the West Virginia methods differ from those used countrywide, attach an explanation of the differences.
2. Explain the type of loss information used in this rate filing. For example, was it Calendar period, Accident period, or Policy period; and was it based on Basic limits data or Total limits data?
3. If Calendar period information is used, explain any adjustments that have been made to reflect changes in those estimated loss liabilities based on actual claims, and changes in Incurred But Not Reported estimated loss liabilities. If a provision for Incurred But Not Reported estimated loss liabilities has been included, tell how it was arrived at, how it has changed over the experience period, and how it was distributed among coverages and states.
4. If Policy or Accident period data has been used, explain any tests or adjustments that were made to loss development factors so as to make them appropriate for use in this filing. Loss development factors should be shown by coverage both for West Virginia and countrywide.
5. Explain any adjustments for large or catastrophic losses that were made in the statistical information on losses.
6. (a) How has the expected income from investments of premiums been specifically taken into account in arriving at the proposed rates?

(b) Using a discounted cash flow model, what rate of return will you get from the premiums with which this filing deals? Show the calculation.
7. Show the amount of any risk load or contingency factor which is used in this filing.
8. Show any procedure used in the filing to recognize the distinction between expenses which vary directly with losses, and expenses, such as general expenses, which do not so vary. (Explain the reason for what you did.) (a) West Virginia (b) Territory or class
9. What have you done to control losses for the coverages included in this filing?

10. For Personal Lines property insurance filings, we would like to know the following:
- (a) If the company has had an insurance to value campaign during the experience period, describe the campaign and estimate its impact.
 - (b) If the company uses a cost estimator (or some similar method) in order to make sure that dwellings (or contents) are insured at their value, tell us when this program was started in West Virginia, and estimate its impact.
 - (c) If the company requires a minimum relationship between the amount of insurance to be written and the replacement value of the dwelling (contents), in order to purchase insurance, describe the procedures that are used.
 - (d) If the company uses an Inflation Guard form or a similar type of coverage, describe the coverage, and estimate its impact.
11. If the loss experience included in this filing reflects both monoline and multiline policies, list for each of the last five years the premium volume written on monoline policies, and, separately, that written on multiline policies.

RATE FILING ABSTRACT

INSTRUCTIONS: All questions must be answered; if the answer is "none" or "not applicable," so state. Use a separate abstract for each coverage affected by this filing.
